...because walls love colours

PLANNING TO PAINT AND REVAMP YOUR WALLS?

IF YES, HERE'S AN APP JUST FOR YOU!

The task of imagining and visualizing different colours, their shades and how they'd go with the furniture, is somewhat challenging, often daunting. PaintsIn app helps you take pictures of your room spaces, choose from a vast range of colours and apply them to the walls. You can also choose from among a rich collection of furniture items, electrical, kitchen and bathroom appliances as well as miscellaneous decorative items to plan the complete interior decor and get a feel of the ambience in 3D.

That's how the colours you've been dreaming of for long become a visual reality on your mobile or computer screen. Should we not say then that we've demolished the wall between your dreams and reality? As that happens, PaintsIn will make your walls speak, brightly and eloquently!

paintsIn

ADVANTAGES

-  Helps visualise your dreams, takes you closer to realising them
