**TILE  
GRANDEUR**

## TILE GRANDEUR

Since the advent of tiles, there has been constant striving to innovate and elevate aesthetics to a new level. While the expanding variety and range of tiles is good news, it has led to a conundrum!

Which pattern, which colour, which shade would go with the room design, furniture set up and the wall colour? To imagine and visualise this on the mind-screen is without exaggeration, a rocket science.

Mobile and computer screens, technology that is, has made it simple!

Tile Grandeur helps you narrow down on the right tile design as you browse through the list of categories. Cutting down on time and money, Tile Grandeur helps the consumer make the right decision. Now that's a golden opportunity for Tile manufacturers and dealers to amaze customers and boost business.

Tile Grandeur allows you to click a picture of your room and apply different tiles to floors and walls. You can also select from among a collection of pre-set rooms to have a 360° view of how they can beautify spaces. Also apply wall paint colours, furniture items, electrical, kitchen and bathroom appliances as well as miscellaneous decorative items.

Tile Grandeur helps make your spaces majestic, not just luxurious!

So when it comes to choosing your **Stile**,

# STOP FRETTING START SELECTING

## SALIENT FEATURES
